

We're super excited to recognize this student as the final Junior Marauder of the month. This sweet, caring student is sure to put a smile on your face when you see her in the hallway or classroom. This student has worked hard to keep her grades above proficient (for most of the school year...until this week...but she has now completed all the outstanding Summatives!!) and is excited to show off her grades on grade check Thursdays.

This student wears her heart on her sleeve as she can not hide when she's tired or sad or happy and ready to go.

This student is a beast on the soccer field leading her team to the State Semifinals with a nail biting finish. And don't even think about catching her when she's on the track breaking PRs and winning ribbons.

Mrs. Bushey shared, "this kind, happy, and athletic marauder has stepped up this year as a leader both on her teams and in the classroom. She has enviable grit in sports and academics, but also shows concern for and gratitude over the other members of their team, and their classmates."

This student was an active member of the Student leadership team and was adamant on this year's prom theme: Iridescence. It is with great pleasure that we award the final junior Marauder of the Month of 2022 to Becca Dupere!
